Fellow citizens of New Orleans:

On December 1, 1961, Fidel Castro dispelled any doubt, if any still existed, as to where he stands on Communism. He will carry his country, and all of Latin America if he can, down the road to statism. And while this process is going on, he poses the biggest threat to American Democracy in the Western Hemisphere in the history of our nation.

We can no longer ignore the Communist-dominated government in Cuba. This is not a typical overthrow of government such as we have witnessed in Latin America. It is part of the international drive of Communism aimed at encircling and capturing all of Latin America and, eventually, the United States.

You can and should join in the CRUSADE to FREE CUBA. You should take action NOW to help in this battle for our own existence.

Please give generously to the CRUSADE to FREE CUBA, either by mail or to the volunteer worker who calls at your home January 20 or 21, 1962.

LIGHT THE LIGHT ON YOUR PORCH JANUARY 20-21 TO FIRE A PAPER BULLET AGAINST COMMUNISM. This will be the signal to the volunteer worker that you have a contribution ready.

Respectfully,

CRUSADE to FREE CUBA
